Overview of the project

Twining Project Improvement of hazardous waste management in Serbia

www.hazardouswaste-serbia.info

- **Beneficiary Institution:** Ministry of Agriculture and Environmental Protection, Republic of Serbia
- **Member State Institution:**
Umweltbundesamt (Environment Agency Austria) – lead
Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB) Germany – junior partner
- **Project Duration:** May 2015 – May 2017
- **Funding:** 2013 Instrument for Pre-accession Assistance (IPA) of the European Union, project budget: EUR 1,000,000.00

Core Team and experts

- BC Project Leader: Mrs. Radmila ŠEROVIC
- MS Project Leader: Mrs. Brigitte KARIGL

- RTA: Mrs. Simona GHITA
- BC RTA Counterpart: Mr. Jelena TESLA

Legal experts and waste management experts from Austria, Germany, Poland and Romania, and their counterparts from Serbian institutions and stakeholders

Project Components - I

Component 1: Proposals of Legal Acts for full harmonization of Serbian Hazardous Waste Legislation with the EU-Acquis

- **Completed:** An “Assessment and recommendation” report was developed which contains a comprehensive analysis of the Serbian legal framework, gaps analysis and a respective set of recommendations. The following waste streams are covered: waste electrical and electronic equipment, batteries and accumulators, (hazardous) construction and demolition waste, end of life vehicles, POPs and PCB/PCT; see project web-site
- **Ongoing:** Drafting of new secondary legislation (hazardous C&D-waste, end-of-life, by-products) and proposals for amendment of existing legislation

Project Components - II

Component 1: Strategic Planning and Implementation Framework for Management of Selected Special Hazardous Waste Streams and for Integral Management of all Special Hazardous Waste Streams

- **Completed:** Study on institutional set-up of Serbian Waste Management (=> recommendations for the improvements of the institutional organization), see project web-site
- **Completed:** Analysis of waste management in other EU countries (=> recommendations for improvement of waste management systems, as regards specific waste streams), see project website
- **Ongoing:** Development of special hazardous waste management plans (haz. C&D, ELVs, POPs) and of an Integrated Hazardous Waste Management Plan

Project Components - III

Component 3:

Improvement of organization and strengthening the capacity of all relevant stakeholders for hazardous waste management functions

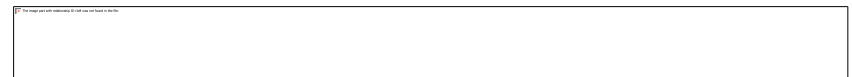

■ **Completed:**

Training needs assessment and Training program

■ **Ongoing:**

Training/seminar for local authorities and key stakeholders

Prepare Guideline for hazardous waste management for local self-governments

**Thank you for your
attention**
